Technical Application

11. Services, Please see website print-outs on **Tab TA-11.**

PHC and the Southeast Ohio Pregnancy Help Community Collaboration organizations – and referral organizations - each provide free pregnancy testing, ultrasound testing, material resources for expectant mothers, mothers and babies, pregnancy peer counseling, parenting classes and mother mentoring programs, and life skills training.

Each sub-grantee organization and referral organization is staffed with trained medical professionals who provide confidential services. Minors under 18 years old are welcome to visit any sub-grantee or referral organization without parental consent. PHC collaborator organizations will not disclose client visits to anyone without permission unless we believe there is a physical danger to the client or others.

PHC and Southeast Ohio Pregnancy Help Community Collaboration organizations and referral organizations offer in-class pregnancy prevention education and services focusing on making healthy life choices consistent

Currently, services are offered at the physical locations:

Appendix A

Technical Application

Additionally, PHC will utilize the services of Pregnancy Solutions & Services mobile ultrasound units in counties that are currently underserved. This is a proven service that provides free medical ultrasounds to women in areas with no pregnancy resource center location. Mobile ultrasound units are staffed with trained one medical professional and one peer pregnancy counselor. Locations and service sites will be identified and implemented based on need in Southeast Ohio counties throughout the grant program.

Please see **Tab TA-12** to view a map of counties currently served and counties that will be served under this grant program.

12. Currently, PHC and the Southeast Ohio Pregnancy Help Community Collaboration organizations serve a wide variety of populations and demographics.

PHC and Women's Kinder Care Center serves mainly urban and suburban low-income families. Vineyard Women's Clinic serves mainly rural low-income families. The other collaborator organizations serve mainly rural and Appalachian low-income families.

A high percentage of women served are single mothers, or expectant mothers, age ranging from 16 to 25 years old.

Since the organizations don't discriminate based on age or income, a wide variety of demographics are served.

In 2013, collaborator organizations administered approximately 1,630 medical ultrasounds.

In 2013, collaborator organizations administered approximately 6,600 pregnancy tests.

In 2013, approximately 5,000 women received material resources such as maternity clothing, baby clothing and provisions, and cribs or car seats.

In 2013, approximately 3,300 women completed parenting programs.

In 2013, approximately 6,000 youth completed pregnancy prevention education.

13. Organizational Chart is included for Making Healthy Relationships DBA Pregnancy Help Community. Please see organizational chart on **Tab TA-13**.
